President's Report: Jack Swainson

I take great satisfaction in giving you a brief report on a sensational year at Sunnybrook Farm. On virtually all fronts, 2018 was a substantial improvement over the 2017 experience! It seems like all of our endeavours proved to be very successful and well received.

The main event was the completion and the move into our new home in the Calder School. That project was a long and frustrating process, but resulted in a versatile facility that will serve our needs for many years to come.

All of our farm orientated programs and activities seemed to happen fairly seamlessly, but all carefully orchestrated by a lot of hard work from our loyal volunteers, staff and summer students.

Our ladies raise a substantial amount of money each year with their pie & tart sales, lunches at the Farm, ham dinners, turkey suppers, garage sales, and silent auctions. In a large part, these events are the lifeblood of Sunnybrook Farm. We owe each and everyone of them a real debt of gratitude, and the guys too of course!

We were very fortunate in recruiting five very amiable and talented young adults to work with Nicole and deliver our school programs and creatively administer our day camps. Both of these activities received great reviews and were enjoyed by a record number of little persons.

Our two main public events on the Farm were bestowed with good weather this year! The interest in and

attendance at Spring on the Farm has been deteriorating the last couple of years and the event needs to be rejuvenated with some novel new ideas and events. Pioneer Days is always very popular and drew record crowds this year. Much of this is due to our annual tractor pull, promoted, organized, and executed by Jill and Jeremy Moore (Moore Maintenance). Jeremy also does a multitude of "things/projects" for us at the Farm for zero \$ or very reasonable cost. Thanks so much for their generosity!

This year we had an added attraction at Pioneer Days when Reynolds Alberta Museum brought one of their meticulously restored Rumley steam engines and one of the first IHC tractors ever built to the show (identical to one the Bowers purchased in the very early 1900s). Besides driving the threshing machine for the demo, they also gave rides around the site so they were a real crowd pleaser! When they came back to pick-up their tractor and steamer, they delivered our J.I. Case 65hp steamer, which will be on permanent static display at the Farm.

The collections committee did a careful and thoughtful assessment of our farm equipment collections this summer. As a result, we decided to deaccession a number of duplicates and junkers that were just taking up space, and we are short of usable space. After being unable to find a new home for them at another museum, and thanks to our volunteers, most of these units were loaded and hauled to the scrap yard and yielded quite a few dollars.

In closing, I must express my sincere thanks to Nicole and Ian for their creative thinking, unique skillsets and steadfast commitment to the Farm's

ongoing success. And of course, I appreciate all my fellow board members and their contribution of time, effort, and expertise to all the unique endeavours at Sunny Brook Farm.

That in essence is my report and I hope you will continue to support Sunnybrook Farm and bring family and friends when you come to visit.

Executive Director's Report: Ian Warwick

So here we are at the close of our 30th year of operations at Sunnybrook Farm Museum and my eighth year as your executive director. My work continues to be exciting and new every day, and I cherish the amazing volunteers that give life to our museum. Thank you for giving me the chance to serve our community in this unique role.

As Jack said, it was one of our best years ever. Nicole has been doing an amazing job as our Interpretation and Collections Manager. Unfortunately, we didn't receive an Alberta Museums' Association staffing grant this year so she wasn't able to work with us full-time in the Fall—but thanks to a unique agreement with the Red Deer Museum she stayed on the books as our employee and worked downtown with them on a major collections project. We hope to continue this relationship in the future.

Our summer staff were amazing. Anna Sawatzky returned from the previous summer, and four new students: Michael Burkinshaw, Aleasha Danderfer, Victoria Matejka, and Mikayla Ince rounded out the interpretive team. Our summer programs continue to grow, with a record 2,735 children registered for school programs and day camps raised over \$34,000 (almost

surpassing our best year ever in 2014). The new Bo Peep program which has preschoolers exploring the farm is a huge hit with the teachers, and allows us to schedule two programs at the same time.

Our events had nice weather and excellent attendance, with Pioneer Days being one of our best attended ever. It was wonderful having Reynolds Alberta Museum participate this year as part of our anniversary celebration. Thanks to Barb Cameron, Jill Moore and Margo Gatto for stepping up to help manage the silent auction this year—it wasn't easy to take over after Pat Setters!

I think the biggest challenge for us was completing the \$600,000 Calder School project on budget. We used up every dollar we had in our cash reserve and things were a little tight at the end of the year, but thanks to a couple of remarkable Christmas angels who made cash donations before the holidays, and a New Year Community Initiatives Program grant from the province, we are now back on track. We have moved our offices to our new digs, and are busy developing signage for visitors to find the new main entrance and parking lot.

Thank you all from the bottom of my heart for everything you do for the museum. You do Red Deer proud. Remember, you're always welcome at the Farm!

Treasurer's Report: Gerry Winia

For year ending December 31, 2018 the Society showed an operating cash surplus of \$24,606 compared to budgeted deficit of \$10,350. In

addition, we received an anonymous donation of \$50,000 just before year end. Capital expenditures in 2018 were \$135,000 to complete the Calder School renovation.

The Calder School project will use most of our investments leaving limited funds to cover any operating deficits in future years. The Board has not yet decided on how much of the \$50,000 anonymous donation will be used for operations or to be reserved for the next capital project.

Funds will now need to be raised before any new capital projects can be undertaken if the project funding requires matching funds from the Society.

Thanks to all our volunteers for their continued efforts to keep our Museum neat and tidy and for their extra effort in preparation for our summer events. Special thanks to the Events Committee and the many volunteers who assisted to run the events at the farm, namely, Spring of the Farm, Pioneer Days and the Tractor Pull. One of our major sources of income each year continues to be our Food Services. The support of the ladies at the above events, along with the Spring Ham Supper, fall Turkey Supper and pie sales generated \$27,000 above expenses for the farm. A big THANK YOU to all the ladies on the Food Services Committee for the many hours they put in each year and also to their volunteers – ladies, men and children- who helped them with serving and cleaning the dishes afterwards.

This coming year we will be able to utilize our new kitchen costing \$35,000 as part of the Calder School project. Yes, there will be some growing pains as we try to streamline processes, hopefully everyone will be able to enjoy our new facilities.

Our Cash Raffle this year netted \$9,500, best year ever, an increase of \$1,400 from the previous year. Special thanks to all the volunteers who worked very hard selling tickets at the farm events, the Farmers Markets and with the final push at the Agri-Trade show. Winner of \$5,000 cash was Jessica Blurton of Red Deer.

The Operating budget for the coming year again shows a surplus of \$7,700. The main reason for surplus is because we have obtained a Community Initiatives Program grant from the provincial government to employ Nicole as a Museum curator for the next 2 years with part of the

matching funds coming from her doing some research work at the Red Deer Museum during the winter months. We need more assistance to raise funds for the Society as \$8,000 per month is required just to keep the doors open, that is, to cover the cost of the Executive Director, utilities, insurance, audit, etc. before we look at programming and having summer events. We need to continue to review the pricing of all our events, day camps, programs and food services to increase our revenues. People enjoy coming to the Farm and are willing to pay extra as a donation. I stress again this year the Society needs more than 4 or 5 key volunteers to sell raffle tickets. Every member and/or volunteer should receive a minimum one book to sell, alternately an annual donation to Sunnybrook Farm and everyone should consider Sunnybrook Farm as one of their "Charities of Choice". Another option is naming the Sunnybrook Farm as one of their beneficiaries in their will in their estate planning.

Many people want to see the Farm do more, however, to do more requires \$\$\$ as well as more volunteers to raise funds, to do the planning and to do the work. Thank you to our regular

volunteers who have maintained our farm to show our heritage in Central Alberta. Thank you to Jack Swainson for guiding our Society as Chair in the past year. Thanks to our Executive Director Ian Warwick leading and promoting our Society to the community of Red Deer and for his dedicated work in applying for various operating and capital grants. Thanks to Nicole Parson-Admussen for upgrading the documentation standards for our artifacts and with improving signage to showcase them to the community. Thank you to Debra Hanna for all her volunteer hours to keep our books in order in a timely fashion. Thank you to Esther Smith and Doug Wright for being our Auditors this year to review our accounting and operating procedures as required by the Societies Act.

Copy of the Budget for 2018 has been attached and will be reviewed at the AGM.

Museum Development Report: Gerry Winia & Ian Warwick

The Museum Development committee had another busy year. Robin Larsen, Bob Just and Ross Smith have all been very busy working on the tractor collection, restoring a few more of the old beasts to running condition again. Robin and Bob

were also active with a new pilot tractor maintenance program, and helped raise an additional \$3,000 for the museum. Bob Hoiss has been working on some of the single-piston engines from days gone by, regularly working through significant mechanical challenges. The 1919 Waterloo Tiller is not quite ready to be showcased in the tractor parade but it's getting close. And Wayne Blenkhorn, Ken Sanborn, Ross Smith, Howard Barker, Larry Dunbar, and Bob Barmby have all been at the farm practically every day working on so many maintenance and restoration projects. Thank you, gentlemen, for making the museum a beautiful place to visit.

The new raised garden beds fared much better this summer with our own volunteers and some residents of Horizon Village signing up for a spot. While the deer made short work of the beet tops and flowers, overall it worked out much better having local, engaged volunteers caring for the garden beds than the community organizations that weren't managing the weeds. Special thanks to Ron & Sandy Hartley and Ken Sanborn for their work on the large gardens, and for the Hartley's work cleaning out the log house flower beds and the beautiful new garden fence.

Obviously, the big news this year was the restoration of the Calder School building. The keys were officially handed over to us in August just before Pioneer Days, but some minor work continued into the fall. Our office staff moved into the building in October. With the new 960 square foot community hall, the historic school room upstairs, and the 800 square-foot addition with our new kitchen and office spaces, this building will continue to serve the museum as a main hub of activity for many years. We are so grateful to Shunda Consulting and Construction for taking such pride in their work, much

of it over and above the original tender quotes. And a sincere thanks again to Jeremy Moore for donating the materials and finishing the grading around the school and the parking lot, before the building was opened up in the Fall.

In July, thanks to significant donations from Mr. Donald Morrison, Pidherney's, and Moore Maintenance, the new culverts and pathway

across the stormwater pond were constructed. After 20 years of constant inquiries with the City, it was so nice to see this done in basically one weekend!

Thank you to all our museum volunteers for continuing to make our site a beautiful and safe place to visit for all central Albertans. This year we are celebrating "120 Years of Farming" as we recognize James & Katherine Bower's relocation and homesteading here in 1899.

Food Services Report:

With our busy 2018 events, we want to extend a huge thank-you to all our volunteers. You are important to our commitments and success. The ham and turkey suppers again have been well attended with the turkey supper selling out quickly once again.

Lunch at the Farm was enjoyed by all who came. Again another fine year for this group of ladies. The pancake breakfasts are always well attended for the early risers. The cookie walk with all those donated cookies is a sellout as well. Thanks to all the volunteers who donated cookies.

At year end it turned out we had our best year ever, with over \$36,000 raised to support summer program at the farm. We are all looking forward to the new year. We want anyone interested in helping at the farm. Join us for a fun day making pies, serving lunches & suppers, or some of the other duties. We're a fun group and you'll learn so much about the farm and what it means to the city.

Auditors Report to the Membership
Annual General Meeting
Friends of Sunnybrook Farm Society
March 21, 2019

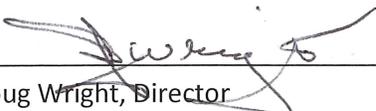

As per the Bylaws of the Friends of Sunnybrook Farm Society, we were appointed to conduct an audit of the books and records of the Society. We are two Board members of the Society who do not have signing authority on the accounts.

The attached 2018 Financial Statements were prepared by Kristina Poulsen from RSM Canada, Chartered Accountants. We have reviewed the Financial Statements, and met with Ian Warwick, Executive Director of the Friends of Sunnybrook Farm Society to audit the records.

We reviewed the accounting procedures followed by Sunnybrook Farm Society and conducted a spot audit of the bank accounts held by the Society, reviewing deposits of funds received and cheques issued. We were generally able to verify all of the transactions randomly selected for review. We found that accounts had reasonable checks and balances.

Overall, we endorse the Financial Statements as an accurate reflection of the accounts of Sunnybrook Farm Society.

Dated this 12th Day of March, 2019.

Doug Wright, Director

Esther Smith, Director

Granting Agencies

*Red Deer & District Community Foundation, The City of Red Deer,
the Province of Alberta, and the Government of Canada*

We would also like to thank the many volunteers that contribute their time to our operations and events throughout the year, including the Ladies of Sunnybrook Farm committee, the silent auction donors, and the folks who throughout the year dedicate countless hours and make in-kind donations to maintain the farm and the collections. Volunteers gave 9,000 hours of their time in 2017 to Sunnybrook Farm. Thank you!
